

Overview INFRARED Two-circuits

HARVIA

Sauna & Spa

Operating type: Temperature, intensity, program

PRO D Infra Multimode

Item no.

INFRA-M

incl.

Power unit WC4-IRX-P (2 x 1500 W / 4 outputs) *

Mains connection cable IR-CP-EU

Temperature sensor 0-F2

Light plug WC4-P-LI

* To increase the maximum connection rating (3 kW),
it is possible to control two or more
(up to 5) power units with one control panel.

Operating type: Intensity

PRO D Infra Dimmode

Item no.

INFRA-D

incl.

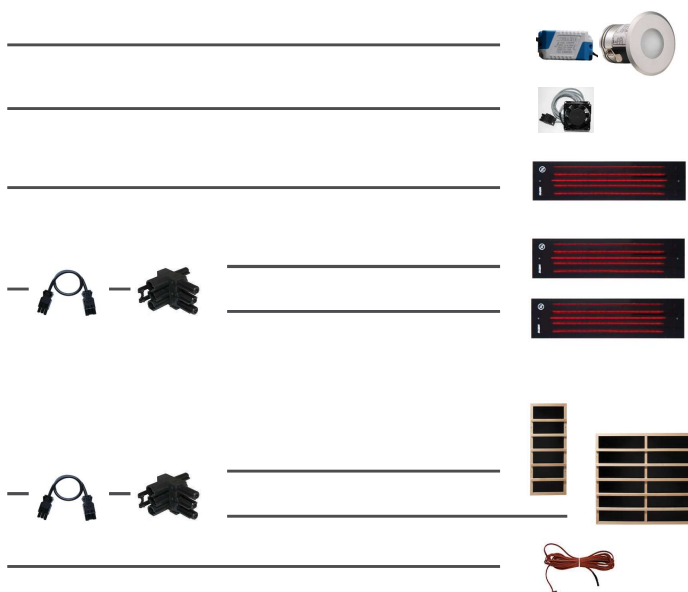

Power unit WC4-IRX-P (2 x 1500 W / 4 outputs) *

Infrabox basic

Item no.
IRB-B-S-S

incl.
Power unit
(1 output / max. 3500 W or dimmable to 1300 W)
Mains connection cable

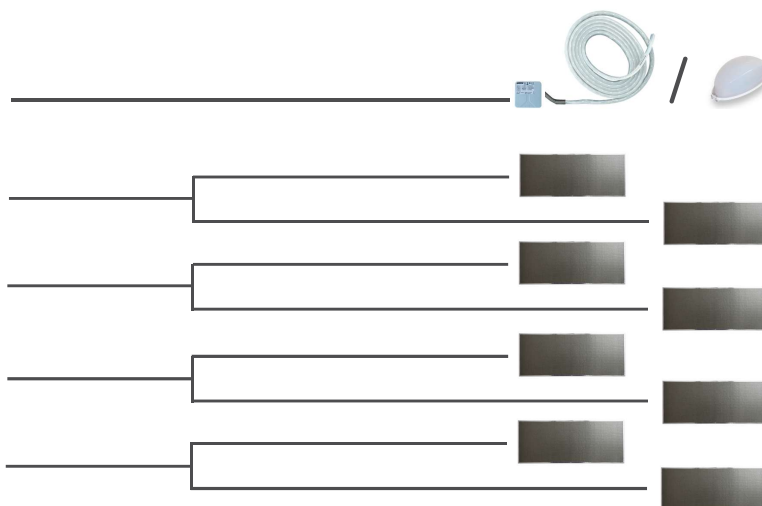

Xenio Infra CX361

Item no.
CX36230I

incl.
Power unit (4 output / max. 3600 W)
Light output max. 300W
Temperature sensor

* To increase the maximum connection rating (3.6 kW), it is possible to control two or more (up to 7) power units with one control panel.
